THE STATE FAIR.

SOME OF THE PLANS OF
THE AGRICULTURAL
SOCIETY.

The Fair This Year Likely
to be Larger than Ever.

A representative of the APPEAL
visited Reno on Thursday and went
to the State Fair grounds.

The grounds are on exactly the
opposite side of the city from the
old ones, and about half as far.

They occupy an almost perfectly
level piece of land 80 acres in ex-
tent, and the site possesses many
advantages over the old location.

There was also a great deal of
dust at the old grounds from the
wind which came from the South-
east, but now the grounds being
Northeast of the city the wind blows
over a tract of country thickly set
in trees, and last of all over 80 acres
of alfalfa, from which no dust can
be gathered.

THE RACE TRACK.

A fine, mile track has been laid,
and it will prove a particularly fast
one, having been copied after the
latest improved tracks of the East.

The track is a dead level from the
grand stand to the second quarter
pole, when it begins to rise slightly,
but so slightly as to be almost un-
noticeable along the back stretch,
until the turn is rounded, when the
highest point is reached, and the
tired horses after rounding the turn,
find themselves on a gentle down
grade to the finish.

This arrangement gives the horse
a slight assistance at the finish,
when he needs his best powers,
and all horsemen are delighted
with it.

It did not require much outlay to
fix the track in this way, as the
natural lay of the ground favored it.

THE OREGON PLAN.

It has been decided to fix the
interior of the track according to
the Oregon plan. It will be seeded
down to blue grass, timothy and
red top, and then cut it just before
the Fair, leaving a velvet oval lawn
enclosed by the track, and in this
park people visiting the Fair can
pitch their tents, camp, and feed
their horses. This plan was first
tried in Oregon, and resulted in
doubling the attendance at the Fair.

It saves the farmers a great deal of
expense in the shape of hotel bills
and gives general satisfaction.

THE HORSE STALLS.

Running North along the track
are the box stalls for the racers.
Sixty-three stalls are provided for
fast stock, and at right angles on
the right of the entrance are sixty-
three more for thoroughbred horses
on exhibition.

Parallel with the last line of horse
stalls is a building with forty stalls
on each side for thoroughbred cat-
tle, and a separate building with
twenty stalls for swine and sheep.

A clear stream of water sweeps
round the last, and running about
80 inches.

The old plan of watering cattle in
mud holes, which was such a nu-
isance at the old grounds, will be
done away with, and suitable
troughs provided supplied by hy-
drants.

At the end of the two lines of
stalls, and close to the stream, a
platform will be provided, where
stock can stand while being washed,
a convenience which all stock own-
ers will appreciate.

Last year there was much com-
plaint because alfalfa hay sold at
\$20 a ton, but this year the Society
proposes to have its own hay and
have it sold on the grounds at the
regular rates in Reno.

THE GRAND STAND

Is 150 feet long and faces to the
East. It will accommodate 1000
people, and the benches are pro-
vided with "lazy backs" 24 inches
high.

The Judges' Stand is in the center
of the Grand Stand and open,
so that the crowd can hear the an-
nouncements as soon as made.

The Judges can from this point
watch the entire race without turn-
ing round to follow the horses with
the eye, as when a stand is on the
inside of the track.

The platform of the Grand Stand
is four feet wider than the old one,
and is supplied with water from
hydrants.

Each quarter of the grounds is

supplied with water from hydrants,
and there are two tanks of 3000
gallons each on the track for the
watering carts.

ENTRIES.

The entries for the races are
nearly all filled, and the thorough-
bred cattle entries are much larger
than last year, so that additional
stall room will be necessary.

Parties purchasing tickets for the
passenger train will be supplied
with coupons taking them to and
from the grounds for 12 1/2 cents
each way, instead of 25 and 50
cents as formerly.

Every effort is being made by
the Directors to have a magnificent
Fair this Fall.

NEVADA'S PRODUCE.

It Will be Exhibited in Cali-
fornia.

Mr. William Thompson has
joined the California Board of
Trade and informs the people of
this State that he wishes to have
them send to him at Reno any-
thing they raise in the line of
home produce which he will for-
ward to the San Francisco Board of
trade to be exhibited at their office
on Market street.

People wishing to exhibit will
give their exhibits to D. A. Bender
at the V. & T. R. R. depot and
they will be shipped free of charge
to Mr. Thompson who will see that
they are placed on exhibition.

Mr. Thompson pays \$25 per
month for his membership.

Arrangements will be made
throughout the State for the ship-
ment of corn, beans, potatoes,
fruits of all kinds and anything
that will be of interest to people
looking for places to settle.

The Board of Trade office is
opened day and night and is visited
by thousands of people daily.

The plan of exhibiting Nevada's
produces will be of good benefit to
the State.

Ladies

In delicate health, and all who
suffer from habitual constipation,
will find the pleasant California
liquid fruit remedy, Syrup of Figs,
more easily taken and more bene-
ficial in its effect than any other
remedy. It acts promptly yet
gently on the Bowels, Kidneys,
Liver and Stomach, and does not
sicken or debilitate. For sale by
Geo. C. Thaxter, agent.

The Prison Evangelists.

Last evening the Prison Evange-
lists preached to a large street audi-
ence near Sweeny's corner. The
Evangelists are women who go
about the country converting pris-
oners. They disclaim any connec-
tion with the Salvation Army.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup
should always be used for children
teething. It soothes the child, soft-
ens the gums, allays the pain, cures
wind colic, and is the best remedy
for diarrhoea. Twenty five cents a
bottle.

The Pistol at Virginia.

Last night a young man named
Doyle was shot in the region of the
heart by a man named Preusch.
He was dying at last accounts.

Broke his Leg.

Last evening Ed. Sweeney was
thrown out of a wagon and had his
leg broken.
